Clinical Education Task Force (CETF) / Committee

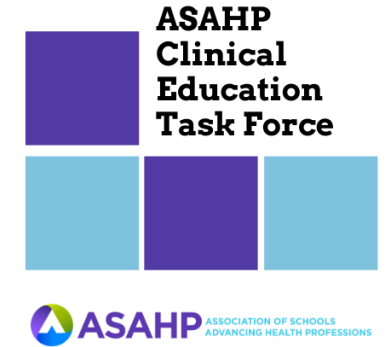

- Founded 2011, nine years old
- Members
 - Deans, Associate / Assistant Deans
 - Faculty Members
 - Clinical Partners in many facets of healthcare
- Many successes in research, scholarship, and learning from each other
- On April 2nd, approached by Board Member to help deal with COVID and clinical education

CETF Decided 4/8/20 on Webinar Conversations

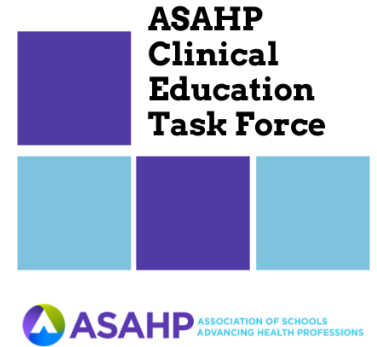

- CETF responded to Ceserina Thompson and Teri Stumbo who approached Staff and Board; webinars were feasible via RingCentral
- The team was created:
 - Phyllis King, ASAHP President
 - John Colbert, Jacoby Lawrence and Kristen Truong, ASAHP headquarters
 - Multiple members of CETF
- After successful pilot April 17, four additional webinars were conducted by end of June

The Assignments

- Fortunately, Marcie Weinstein, CETF member, and Kristen Truong, ASAHP staff, had worked all year to create the CETF website
- ASAHP staff advertise programs, conduct preview training sessions, manage the webinars and logistics of registration, conduct post-session surveys, and aggregate outcomes
- CETF members select topics with some Board guidance, moderate events, present and invite external speakers, participate in preview sessions and webinars, and discuss outcomes

The Webinar Structure

- Scheduled events Fridays 12:00 to 2:00 ET to accommodate both coasts
- Goal: 50-55-minute length to include discussion and Q&A
- Welcome by ASAHP President
- Moderated by CETF members
- Generally panel of two to three presenters
- CETF and registrants submit questions to presenters beforehand
- Participants post real-time comments or questions in Q&A section
